

## **BRANDSCHUTZTECHNIK MÜLLER competing in the US market** North Hesse-based family business enters into a cooperation agreement

As of late, BRANDSCHUTZTECHNIK MÜLLER is also represented in North America. To this end, the North Hesse-based family business entered into a cooperation agreement with GETZ FIRE PROTECTION. In the future, this US company will distribute selected products in the USA for BRANDSCHUTZTECHNIK MÜLLER. This includes equipment for inspection services. The associated tasks will be carried out by MUELLER USA FIRE PROTECTION EQUIPMENT, a new department created at GETZ FIRE PROTECTION.

“For quite some time, we have been working towards cooperation with companies in the USA,” explains Nadine Müller, Managing Director of BRANDSCHUTZTECHNIK MÜLLER. “We are very happy to have found a partner in GETZ FIRE PROTECTION that is a perfect match for us and our company’s philosophy. It is a company with vast expertise in its line of business which is family-owned like ours.”

At the exposition of the National Fire Protection Association (NFPA) in Boston from 4-7 June, BRANDSCHUTZTECHNIK MÜLLER will present itself together with its new partner in the US market.

### **About GETZ FIRE PROTECTION**

In 1962, Robert E. Getz founded a company which provided fire extinguisher services. Today the company based in the Borough of Ephrata, Pennsylvania, has two mainstays: on the one hand, GETZ FIRE PROTECTION offers a range of fire protection technology and extinguishing agents such as fire extinguishers and sprinkler systems and, on the other hand, their portfolio includes general security systems for residential and commercial buildings. The company has nothing to do with GETZ FIRE EQUIPMENT COMPANY which is a competitor of BRANDSCHUTZTECHNIK MÜLLER in the US market.

### **About BRANDSCHUTZTECHNIK MÜLLER GmbH**

BRANDSCHUTZTECHNIK MÜLLER GmbH was founded by Herbert Müller in 1980. The company now consists of three business segments and has a total of 65 employees. As a classical mechanical engineering company, BRANDSCHUTZTECHNIK MÜLLER manufactures equipment for inspection services. The firefighting equipment supplier is not only based at its main site in Zierenberg, North Hesse, but also in Günthersleben, Thuringia. Furthermore, the car agency for MAGIRUS GmbH has been a part of BRANDSCHUTZTECHNIK MÜLLER since 1980.
